

**Overview of costs for optional 5-year warranty on LED products of  
INLIGHT GmbH & Co. KG, Otto-Hahn-Strasse 7, 46569 Hünxe.**

INLIGHT offers the optional and chargeable 5-year warranty in two versions:

- **5-year warranty BASIC**
- **5-year warranty PREMIUM (including batterie & light current warranty L80B10)**

The scope of services of the warranty is defined in the respective applicable special warranty conditions.

In addition, the warranty may be contracted in two different versions:

- **Annual agreement**
- **Order-related**

When contracting an annual agreement, the customer and INLIGHT conclude a contract with a minimum term of 12 months, which defines that for the period of the agreement all products purchased by the customer from INLIGHT carry a 5-year warranty (according to special warranty conditions). INLIGHT charges a lump-sum warranty to the customer after the 12 months have elapsed based on all sales transacted with the customer during the 12 month period.

As an alternative option, the 5-year warranty may be contracted in an order-related manner, which has a more customised character but is also more expensive because of the greater processing expenses. With order-related processing, a surcharge at the respective warranty cost rate is added to all products purchased for a specific object. The customer is then obligated to specifying the object designation with all orders for the object and, in addition, note that a 5-year warranty shall apply to the luminaires. Unless the extended version of the 5-year warranty is ordered by the customer when placing the order, INLIGHT assumes that only the basic version is requested.

The currently applicable warranty cost rates are shown in the following table:

| Version | 5-year warranty BASIC |               | 5-year warranty PREMIUM (including batterie & light current warranty L80B10) |               |
|---------|-----------------------|---------------|--|---------------|
|         | Annual agreement      | Order-related | Annual agreement   | Order-related |
| Costs   | 1 %                   | 2 %           | 3 %  | 4 %           |
